and Sanative Wash -and was entirely months' use of them."-Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 39,

No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound, made exclusive-ly from roots and herbs, a fair trial. This famous medicine for women has for thirty years proved to be the most valuable tonic and renewer of the female organism. Women residing in almost every city and town in the United States bear willing testi-mony to the wonderful virtue of Lydia Pinkham's Vegetable Compound

E. Pinkham's Vegetable Compound.
It cures female ills, and creates radiant, buoyant female health. If you are ill, for your own sake as well as those you love, give it a trial.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write herfor advice. Her advice is free, and always helpful.

# **BEST TREATMENT**

SUDDEN, SEVERE ATTACKS ARE OF FREQUENT OC-CURRENCE.

Chamberlain's Cough Remedy a Certain Cure---Has Never Been Known to Fail.

If your child has ever had croup, you need no description of the symptoms, but to the inexperienced, the peculiar ringing cough is often unnoticed until the disease is well un-der way. A child may go to bed at night in his usual sealth, except perhaps a cold, only to awaken a sew hours later with a well developed attack of croup and the remainder of the night is spent by the anxious parents in trying to relieve his suffering, which is usually more or less experimental. It is usually difficult to secure the services of a physician in the middle of the right, and he should never be depended upon as the case must be treated at once. A bottle of Cham-berlain's Cough Remedy in the house will save anxiety, expense and perhaps the life of the child. When this medicine is given at the first indication of croup, the attack may be avoided, and even after the croupy sough has appeared, it will prevent the at-sough has appeared, it will prevent the at-tack. We have never known it to fail to effect a cure in any case of croup, and it is we believe, in more general use in the United States for that disease than any other remedy.

The second prize of \$150 to William Shea, Cornell university, 1938, for a paper entitled "The Case Against Socialism."

Notice was also given by the committee

Notice was also given by the committee that writers and students who wish to compete for the prizes offered for 1909 will be allowed until June 1 to make their studies and finish their essays.

POPULATION OF THE SCHOOLS. One-Fifth of the Inhabitants in the

he would be better off in jail than wa'k- neighborhood of 19,000,000 pupils of all grades what those who arranged the course concold snap Murphy was sentenced to the population attended the common schools for

> per cent. "While the proportion of the population the remarkable increase in those attending high schools and other schools of middle grade still continued, reaching in that year. 1906-7, about 1.13 per cent of the whole population. In round numbers one out of every ninety of our people was enrolled in a secondary school and one out of ever 300 in a college or other institution of higher education. Inasmuch as an approach to these high proportions has been going on for many years and the length of time any one pupil is in a school of any grade is only fraction of the average length of a human life, it is clear that the proportion of our population who at any time had received Shoe education of one of the grades indicated was much higher than would appear from the number enrolled for the year under consideration.

"Of the total number of teachers in the common schools of the country, about 475,-000 in all in that year, 1906-7, less than 2235 per cent were men, and not only this percentage, but the actual number of man teachers had been steadily declining for ten years or more. The average monthly salary of both man and woman teachers in the meantime had been slowly rising, yet Morris Levy left Friday evening for New York, where he will join Mrs. Levy and their daughter. After a short stay in New York they will take a trip to Cuba, returning to the city about Februnent improvements' had been advancing for nearly twenty years the proportion devoted to the personal services of teachers had been slowly receding. In the year 1906-7 the distribution of our common school fund was about as follows: For buildings, sites, to, one-fifth; for teachers' salaries, threefifths; for other purposes, one-fifth. The total expenditure so distributed amounted in the year 1906-7 to something over \$330,-000,000. For the same year the expenditure for education of all grades, both public and private, in this country rose to approximately \$442,000,000,"

MIGHTY HARD JOB.

Objections of College Presidents to Soliciting Money. Henry M. McCracken, chancellor of the

New York university, expresses agreement with President Taylor of Vassar in asserting that college presidents frequently met with insult while collecting money for their institutions. In an interview in the New York Evening Post the chancellor said: "I have had an experience of nearly a

quarter of a century in begging money for the benefit of New York university. It has been the most trying labor I have ever done in my life. Several considerations have supported me throughout the ordent. "First, the university corporation never

imposed the work upon me as a part of the duties of the chancellor's office. is not in any proper sense a part of the chancellor's work. It has been a sacrifice coluntarily offered by me for a great and "Second, I have never put myself into

the business as a person asking a favor, out only as the representative of a cause who was offering a privilege to the person solicited. I occupy the attitude of the frontier preacher who sent around the colction box, and, when it came back found absolutely empty. He said: 'Brothren and sisters, you must not go home and say, Brother X made a failure today, but go home and say. This whole settlement of people made a failure today.'
"Third, I considered myself a quasi-

ollector of taxes from efthens in order establish and carry on precisely such iniversity work in the state of New York as is paid for by public taxation in every state west of New York which has a state niversity. I was, therefore, asking of men of large income to do what citisons of western status are compelled to do by law. My ringing the doorbells of the rinh and asking their autographs in my

ting money for the same object by taxation for at least one reason-it gives the touch with them. very rich a chance to bridge over the increasing gulf between them and the rest of the people."

PRACTICAL TRADE SCHOOL.

Pactories and Schools Co-operate in the Experiment.

A co-operative trade school experiment combining the resources of seven ractories and the local schools, is under way in Princeton university, which has just ap-Fitchburg, Mass. Each Saturday at 11 o'clock the boys who have been in the schoolroom that week go to the shop and ascertain what particular job their alternates have been employed on the United State and 25 from Latin Americans come from the population attended the common schools for a longer or a shorter period. This percentpairs, so that by alternating they have at all times one of the pairs at work. Each Saturday at 11 o'clock the boys who have been in the schoolroom that week go to the shop and ascertain what particular job their alternates have been employed on and how it has been handled, so that the work may be taken up the following Monday at least sixty different twenty-one countries. The Latin-Americans come from twenty-one countries at least sixty different twenty-one countries. President James Burrill Angell. day morning without delay. In addition to the regular school work, an "industrial society" has been organized for mental and social advancement. The society meets each month and is conducted by the boys themselves. The plan is to have manufacturers and others give talks of an instructive nature and follow up the talks with discussions by the members. Social gatherings also will be held from time to time, to which others than members will be invited.

The workers are entirely under the instruction of the foremen in the factories. Prof. William B. Hunter of the high school, visits the factories occasionally,

scription book is more beneficial than get- but merely to see that the boys are con ducting themselves properly and to keep in

One of the strongest points in favor of a general adoption of the plan is its inexpensiveness. No apropriation whatever is needed.
